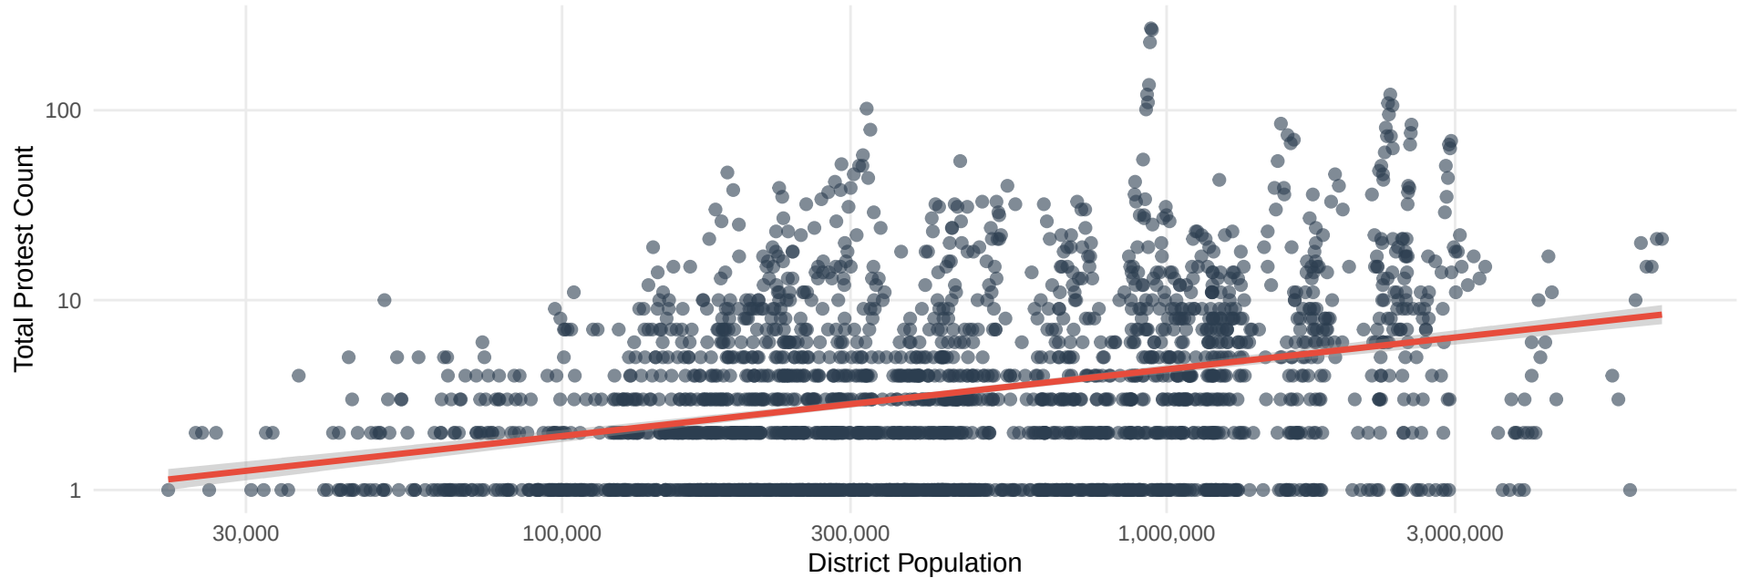
Population−Protest Diagnostic Plots
Indonesian Protests 2015−2024

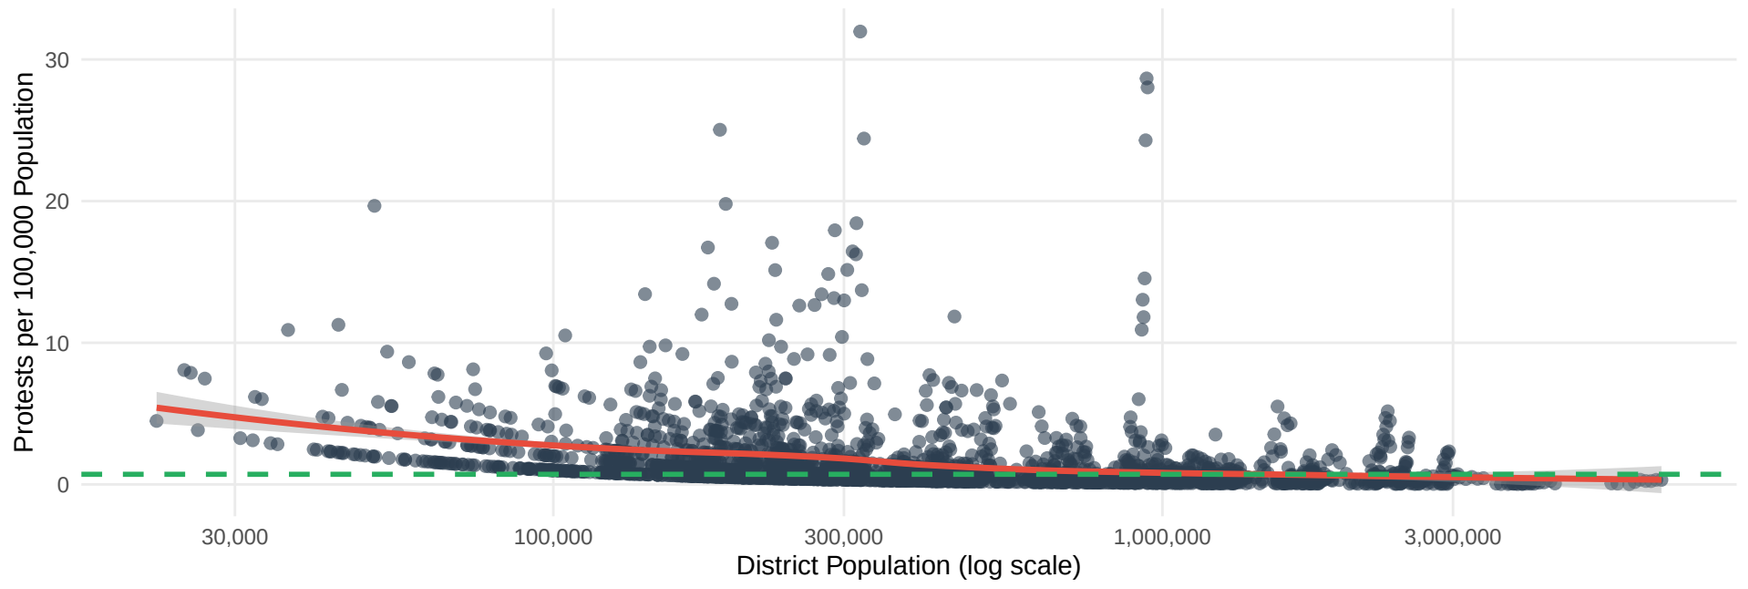
A. Protest Count vs Population (log−log scale)

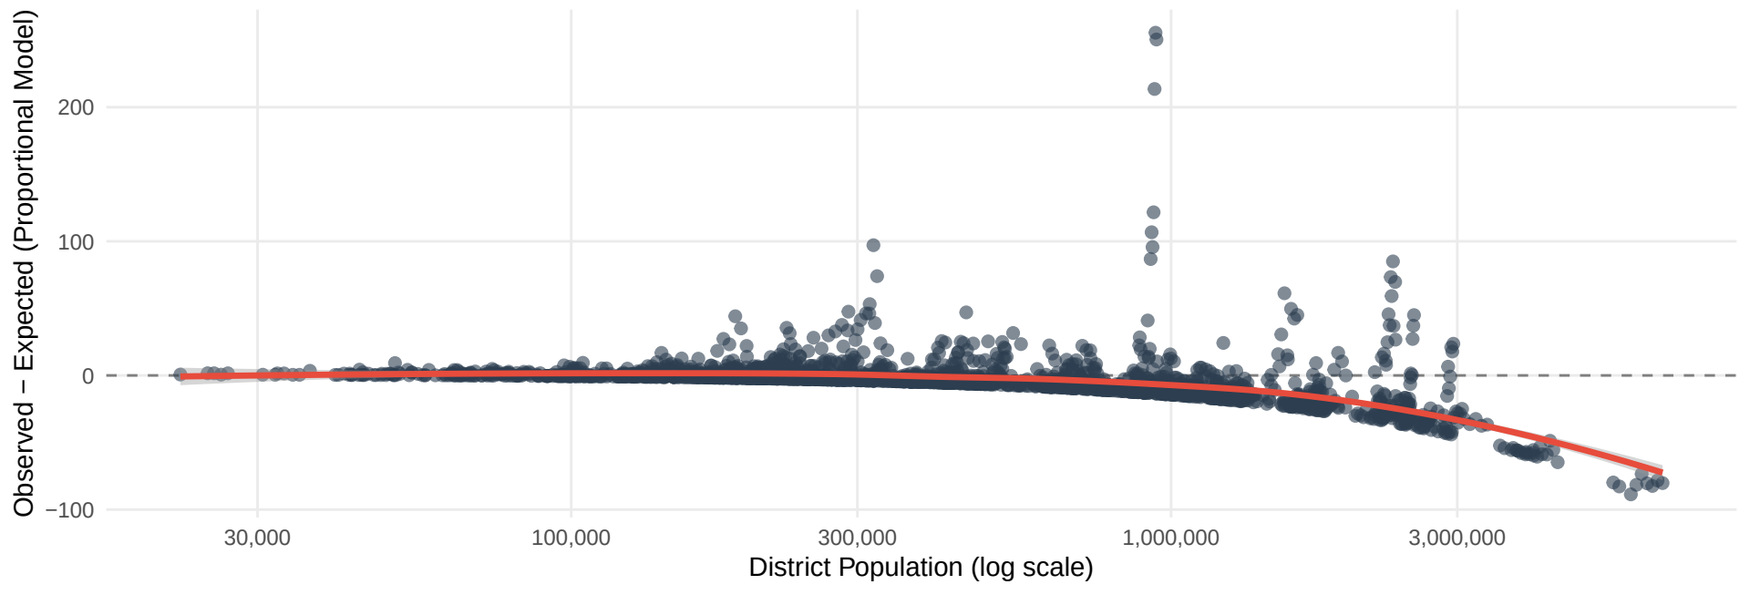
OLS slope = 0.351 (red line) | Proportional line (slope=1, green dashed)



B. Per−Capita Protest Rate vs Population

Median rate = 0.71 per 100k (green dashed line)



C. Residuals from Proportional Model


Deviation from constant per−capita rate assumption
